### Disclaimer

Information shown on screens for this tutorial was taken from test data developed for the hazardous waste reporting program. Device, process, and other information from existing facilities were used for illustrative purposes only. Existing facility data was used to show typical usage of screens in the program. None of the information presented in the following screens should be viewed as accurate information.

## **Hazardous Waste Form FW**

Hazardous Waste Form FW, also known as the Fee Worksheet(FW), is a required for any facility that generates hazardous waste. Form FW is divided into two sections. Section A is for reporting the quantities of hazardous waste generated and managed by specific methods. Section B is used for large quantity generators to note changes in their site's waste minimization activities.

DNR uses this information to assess a hazardous waste generator fee. This estimated fee is shown on the form. The fee is assessed in environmental fee statements sent to the facility at the end of May. We ask that you do not send the fee until after you receive the May environmental fee statement.

### FEE WORKSHEET (FW FORM)

**A. Amounts generated and fee exempted**  
**Report all amounts in pounds**  
**Do not report the same waste under multiple exemptions in boxes 2a, 2b, 2c and 2d**

**1. Amount of waste generated(in lbs)**

**2. Please answer the following:**

2a. Was the waste recovered for recycling or reuse (including hazardous waste incinerated for the purposes of energy recovery)? ☐ Yes ☒ No  
Amount of waste recovered/recycled(in lbs)

2b. Was the waste leachate (which contained hazardous waste) transported to a wastewater treatment plant or discharged directly to a sewer? (Note: Leachate is commonly generated by land disposal facilities) ☐ Yes ☒ No  
Amount of waste leachate to wastewater treatment(in lbs)

2c. Was the waste hazardous waste removed from the site to repair environmental pollution? ☐ Yes ☒ No  
Amount of waste removed through environment repair(in lbs)

2d. Was the waste hazardous waste collected by a municipality under a program for the collection and disposal of either household or agricultural hazardous waste? ☐ Yes ☒ No  
Amount of waste collected under Clean Sweep(in lbs)

**Net Waste(calculated from above)**

**Fee Estimate(based on net waste)**

**B. Waste Minimization activities**  
**Completion of questions 3 and 4 is required for Large Quantity Generators only**

**3. During 2005 did you implement any new activities that resulted in minimization of the waste reported above?** ☐ Yes ☒ No

**If you answered YES continue to question 4**

**If you answered NO, select the appropriate code below**
